

Program Description

Court2You is a FREE program offered by the Cobb County Superior Court to educate groups of interest on the court system and its functionality. This interactive program offers students insight on the day to day operations of the civil government and the judiciary.

Here at the Cobb County Superior Court, we feel it is important to inform our community about the judicial system and how it works. Not only that, but it is essential for our youth to understand the critical role the judicial system plays in our day to day life, and how they fit into this process as citizens. *Court2You* was designed with this very important educational goal in mind.

A representative from our organization will accompany one of our Superior Court judges, or other requested personnel, to your school or facility and provide an interactive 1 hour session with your students in an effort to enlighten them on the complex interworkings of our judicial branch.

Here's the best part. This program is unique in that it can be tailored by age and focus. You decide what areas of the judicial system your students would be interested in learning about, and leave the rest up to us! We'll come to you with an experienced court professional to speak with your students, and leave them with an understanding of the underlying purpose and importance of this essential branch of government.

After your one-on-one session with a court professional, your students will view a short 15-minute video that outlines the functionality of our court system and the key people in the courthouse that help to ensure its efficiency.

And that's not all! We'll finish up by playing a trivia game, complete with prizes, to see how much your students learned during our visit. This unique program is sure to leave your students with a deeper understanding and knowledge of the functions of the judicial branch of government.

For more information, including information on how to register your group for a mock trial, visit our website at :
